

Analyzer of combustive and lubricating materials СИМ-5
(producing in two modifications):

Analyzer of combustive and lubricating materials СИМ-5Д

Quick-look (field) analysis of quality of combustive and lubricating materials: flash point measurement in closed cup.

Analyzer of combustive and lubricating materials СИМ-5М (АК-5М)

Quick-look (field) analysis of quality of combustive and lubricating materials: flash point measurement in open cup.

Type	Purpose	Range (error)	Dimensions, mm device/sensor	Mass, kg, not more than
СИМ-5Д	flash point measurement in closed cup	(17-164) °C ± 5°C	280x160x240	6,0
СИМ-5М (АК-5М)	flash point measurement in open cup	(74-274)°C ±5°C	280x160x170	5,0
